Making A Killing: The Untold Story of Psychotropic Drugging

Psychotropic drugs. It's the story of big money-drugs that fuel a \$330 billion psychiatric industry, without a single cure. The cost in human terms is even greater—these drugs now kill an estimated 42,000 people every year. And the death count keeps rising.

Containing more than 175 interviews with lawyers, mental health experts, the families of victims and the survivors themselves, this riveting documentary rips the mask off psychotropic drugging and exposes a brutal but well-entrenched money-making machine.

We think you have the right to know the cold, hard facts about psychiatry, its practitioners and the threat they pose to our children.

Order Making A Killing documentary is something you need to see. Distribute it to others—associates, family and friends. Warn them about psychiatry's damaging treatments.

When you watch the DVD you will be outraged and will want to act to end these abuses.
